- (2) The disposition of the regiment checks with information of Earch 1950. See ______ The statement that 700 troops were in Stribro may be correct, since the replacement battalion with an NCO school was also located there as well as the regimental headquarters units.
- (3) There have not been any essential changes in officer personnel since March 1950.
- (4) It is believed that the regimental headquarters units also include a heavy mortar company.
- (5) The employment of army personnel on border guard duty to reinforce SNB border personnel is not unusual and has been repeatedly reported, especially in 1948.
